

Allison Duncan

I consider it an honor and privilege to serve as the first fourth grade teacher at Triad Baptist Christian Academy! I look forward to the future here, and I praise the Lord for this chance to use my talents and love for teaching to directly impact young minds for Christ. While I have always enjoyed teaching, I am especially enthusiastic about this position because it allows me to teach information that has *eternal* significance. I made the decision to teach at TBCA, because I believe this school is helping prepare a generation of students who not only know and follow God's Word but who also have the academic knowledge needed to contribute to and impact the world around them.

The most important part of my life is my relationship with Jesus Christ. Since I first started following Him back in my senior year of high school, the Lord has continued to amaze me with His goodness and His patience. My husband Mark and I attend Salem Chapel where Mark is on staff as the Administrative Director. I love spending time with my husband Mark, reading, exercising, traveling, serving in our church, and hanging out with family and friends. Some of my favorites include monkeys, mint chocolate chip ice cream, the beach, fall in the mountains, and badminton. I love learning, children and the challenge of teaching!

I attended Winston-Salem Forsyth County Schools from kindergarten through high school graduation. After high school, I earned a Teaching Fellows Scholarship which means I made a commitment to teaching before I even started college. (And I do not regret it!) I attended Meredith College in Raleigh, NC where I received a B.A. in English with my NC certification in Elementary Education. I also recently received my ACSI certification. I have been teaching fourth grade as a full time classroom teacher since graduating from college. I have also been involved in several ministries throughout my walk where I taught lessons from the Bible to students. I look forward to continuing to grow in my knowledge of God's Word and best practices for teaching.

To my new students: I'm so glad to have you in my class this year! I look forward to learning and growing with you! Fourth grade is a wonderful year to grow in your ability to think and problem solve for yourself and look for ways to use the information you are learning.
