

LUNCHBOX SAFETY

Parents:

Please remember that if you send in items that need to be refrigerated, you must include an ice pack with the lunch. We do not provide refrigeration of lunch items. Since we do not eat lunch until noon, your child's lunch may be sitting for several hours un-refrigerated. Please label lunch containers with your child's name. No peanut/nut products. Summer Camp is a peanut/nut product free zone.

We also ask that if you are sending food that needs to be heated, please purchase items that you can heat at home and send in a thermos. We will be offering warm up days. You can send in food that requires less than 2 minutes to heat up. Each group will have a specific day. More information in which days will follow after registration is complete.

Thank you!
